React.js

Coursera · 2023

Ghulam Ali

Full Stack Web & Mobile App Developer

PROFILE

Full Stack Web and Mobile App Developer skilled in React, Next.js, TypeScript and React Native, with hands-on experience turning Figma designs into fast, pixel-perfect, responsive interfaces. Comfortable across the stack with Node.js, REST and GraphQL APIs and MongoDB, with a focus on performance, clean code and great user experience.

EXPERIENCE

Full Stack Developer — Mar 2025 – Present

Futurifysoft

- Build and maintain multiple products, shipping new features and fixing bugs across the stack.
- Work with modern web technologies on both frontend and backend.

Front End Engineer — Jun 2024 – Present

Qarhami Remote Base

- Converted Figma designs into responsive React 18 interfaces using Material UI and Tailwind CSS.
- Built a GPS vehicle tracking app with real-time updates, dashboards and offline PWA support.
- Integrated Google Maps API with custom markers, live tracking and route plotting.
- Improved load times with lazy loading, code splitting and React state management; worked with backend developers on REST APIs and authentication.

Web Developer — Apr 2024 – Jun 2024

Iqra University, Main Campus Karachi

- Managed the main website and Alumni Portal using WordPress, HTML, CSS, JavaScript and MySQL.
- Improved speed and SEO; handled security, updates, backups and monitoring.

Frontend Developer — Feb 2023 – May 2024

Granule Services

- Delivered pixel-perfect, responsive websites for marketing agencies from Figma designs.
- Added sliders, form validation and animations while meeting tight client deadlines.

PROJECTS

app.qarhami.com – Rental and GPS vehicle tracking system.

iqra.edu.pk – University website and Alumni Portal (WordPress, MySQL).

socialendpoint.com – Responsive marketing websites from Figma designs.

rdcosindh.org – NGO website for Roze Dhani Community Organization.

odysseyacademy.education – Learning management system (LMS) web app.
